# Lucky Lady's Roulette

## Higher Multiplier Roulette

### Lucky Lady's Roulette

Lucky Lady's Roulette is an exciting new version of the Roulette game, where the Lucky Lady adds a little touch of extra Charm. Players place their bets as normal on the layout with the same odds as a traditional Roulette game on all outside bets and splits, the exception being that straight number bets pay-out at 30 for 1.

In each game, after betting is closed and while the Roulette ball is still spinning, the Lucky Lady picks 1-4 random LUCKY LADY BONUS NUMBERS (from 0-36), with bonus multipliers totalling 210x stake for straight numbers, displayed on magic spheres.

Bonus multipliers total 210 x stake  
Only straight number bets on these highlighted numbers can win with the respective bonus multiplier.

If the game result matches a bonus number and the player has bet on that number, they win (30 x straight bet) + (bonus multiplier x straight bet)

Lucky Lady's Roulette is available for all Roulette variants of the NOVOMATIC ETG offer based on Novo Unity™ Pro: Novo Multi-Roulette™, Novo TouchBet® Roulette and Novo Flying Roulette™ in 0/00 versions.

# Going for Gold™

## Roulette Jackpot Side Bet

These jackpot side bet winning chances add some extra thrill to the classic Roulette game! GOING FOR GOLD™ is a multi-level jackpot side bet, set up as a Local- or Wide-Area Progressive offer for all connected Roulette games.

Additionally to their classic Roulette bets, players can also choose to buy and place a certain quantity of side bet tokens on the Roulette numbers of their choice, thus participating in the jackpot game. The winning number for the side bet is the same as for the traditional game.

Players enter the jackpot race by buying a token and placing it on a number. If their number hits, they unlock the next jackpot tier – e.g. win Iron to move up to Bronze, and so on.

The number of jackpot levels, denomination of the jackpot tokens and individual win values for the jackpot levels can be adjusted according to operator preferences in the menu settings.

GOING FOR GOLD™ is available for all Roulette variants of the NOVOMATIC ETG offer based on Novo Unity™ Pro: Novo Multi-Roulette™, Novo TouchBet® Roulette and Novo Flying Roulette™ in 0/00 versions

# Electronic Table Games

## Unique Table Game Variants

### BLACK JACK

Blackjack Pro offers a unique twist on classic gameplay with community card logic and independent actions. Multiple rule sets, side bets like Perfect Pair, Spread, and Poker, plus full multigame integration ensure flexibility. Touchscreen betting, multi-language support, and Blackjack-only configurations round off this customizable solution.

### BACCARAT

Baccarat offers Classic, Pairs, and Royal variants plus four tie bet options. Operators can enable side bets like Player/Banker Pair or Royal Match. Fully customizable in layout, colors, commission, and stats – with multilingual support and flexible betting fields for any environment.

### POKER

Caribbean Stud and Three Card Poker are offered as TouchBet® live games or Flying versions with virtual RNG. A single deck serves unlimited player terminals, and an optional starting-card selection feature smooths payout volatility. Fixed-odds side bets with bonus pay tables are included, while languages, color themes, stake limits, and more can be customized. The setup also supports live-dealer streaming with multiple card shoes.

### SIC BO

NOVOMATIC's electronic Sic Bo fuses classic dice drama with cutting-edge efficiency. Live connectivity ensures faster rounds and fairness, while multilingual stations offer seven layouts, video and instant stats. Operators gain cleaner data, fewer disputes and higher turnover – tradition re-imagined, profit optimized.

# Video Slot Games for ETGs

Classic hot slot mixes for multiplayer game enthusiasts. A unique feature of the Novo Unity™ Pro system is the flexible interconnection of a great variety of electronic live games and slot games on a large number of individual player stations.

This multi-game functionality allows the operator to link any chosen number of terminals to different games and game versions of Roulette, Baccarat, Poker, Black Jack, Sic Bo and Bingo as well as a great slot games offering within one installation.

# ETG Features

## Customize Your ETG Solution

Novo Unity™ Pro offers numerous advantages through its innovative server architecture and seamless integration with the comprehensive NOVO LINE™ system:

### SCALABILITY

Novo Unity™ Pro adapts seamlessly to your floor configuration. Modular Setup: Connect additional terminals and components at any time using the same infrastructure, with capacity for up to 40 games per seat and stadium-ready performance. 8 Pod Island: Start with the out-of-the-box solution of eight linked terminals that are instantly operational and easily expandable to an Arena Setup. Two setups. One system. Modular. Expandable. Limitless.

### NOVO UNITY™ PRO DBS

Centralized control and configuration for all connected terminals.

#### Capabilities:

- Activate or deactivate games in real time
- Adjust minimum and maximum bet limits
- Manage camera feeds, animations, and statistical displays
- Create terminal groups for dedicated gaming zones or differentiated bet structures (e.g., standard play, promotions, VIP areas)

### DATA STORAGE & REPORTING

The integrated Management Console delivers full real-time and historical reporting, giving authorized managers and technicians browser-based access across the entire gaming setup.

#### Highlights:

- Centralized data storage with daily backups (schedule fully configurable)
- Live reports, performance statistics, and financial overviews
- Optional AWS cloud integration
- SFTP export for third-party compatibility

### SECURED SYSTEM

Novo Unity™ Pro multi-layer security architecture locks down hardware against tampering, shields software logic and data, and encrypts every signal from terminal to server. Power Failure Protection: Fail-safe technology keeps the system operational during interruptions, ensuring a secure and controlled shutdown.

### CUSTOMIZATION, CONNECTIVITY & TOURNAMENT MODE

- Multilingual Support – Full text and speech coverage for international markets
- Table Settings – Up to 6 tables per ETG, configurable in live, automatic, or flying mode, each with individual denominations
- Tipping Function – Optional tipping for live table dealers
- Custom Branding – Change backgrounds with your own graphics or casino logo
- Zero Credit Behavior – Flexible settings to maintain terminal appeal when no credits are available
- Flexible architecture for seamless integration into existing systems
- Compatible with all major Casino Management Systems
- Real-time data interface (MSPy) for exposing game results, phases, and statistics on online platforms
- Supports hybrid setups – land-based infrastructure powering online gameplay
- Integration with live components (card shoes, roulette wheels) via sensor technology
- Perfect for special events and promotions, Tournament Mode supports all ETG titles and Novo Unity™ Video Slot mixes.

# ETGs Connect

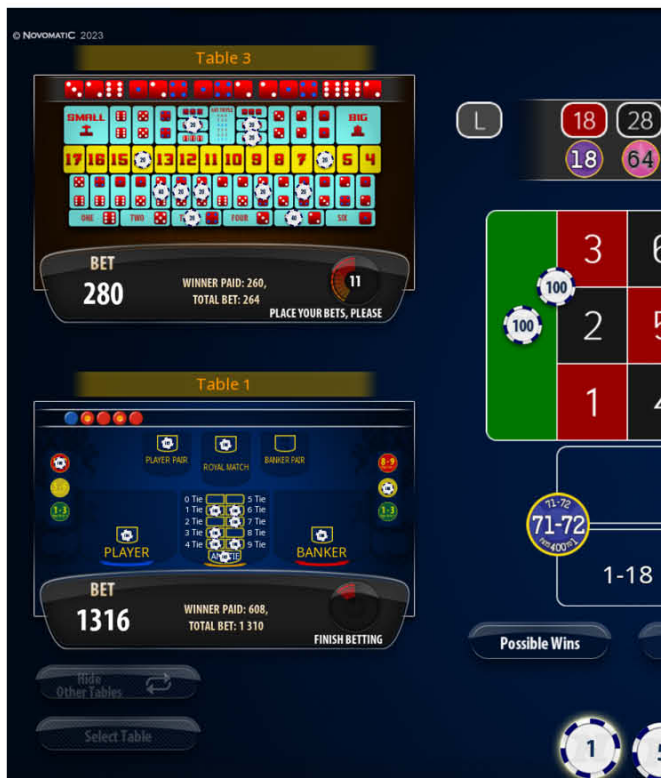

Play Live, Anywhere!

## WIDE AREA NETWORK

Connect every ETG terminal – across the floor, across town, or across locations – in perfect real time. Stream a single live dealer to thousands of screens with near-zero latency, or weave multiple properties into one friction-free ecosystem. Every bet stays crystal-clear and perfectly synchronized. With WAN connectivity and live streaming at its core, this solution transforms scattered setups into a single, immersive stage. Operators gain centralized control, reduced operational overhead, and flexible scalability – while players enjoy a seamless, high-stakes experience wherever they play.

## SIMULTANEOUS BETTING

This addition to the multi-game functionalities for a range of electronic live games based on Novo Unity™ Pro delivers a new dimension of game turnaround for players.

Simultaneous betting options allow guests to play up to three electronic live games at the same time: Roulette, Baccarat, Black Jack 3 Hand or Sic Bo. Extra game windows on the betting screen enable the guest to switch at any time between available games and game versions such as TouchBet®, Multi- or Flying versions of a game.

- Parallel Play empowers players to engage in up to three different games simultaneously – all from one single terminal.
- Increased game frequency and hand per hour
- Greater player flexibility and freedom of choice

# Impera Roulette Games

## Lucky Lady's Roulette

With Impera's latest version of Impera Line™, multiplayer systems with up to 255 terminals can be set up and offer two different multiplayer roulettes, in addition to the comprehensive portfolio of more than 70 games from its successful Impera Line™ Edition 9. The Multi-Roulette Version 1 includes Lotus Roulette™ and Lucky Lady's Roulette.

Lucky Lady's Roulette is an exciting new version of the Roulette game, where the Lucky Lady adds a little touch of extra Charm. 1-4 randomly selected Lucky Lady's bonus numbers pay out with increased odds of up to 210 x the bet for straight numbers only.

## River Queen Roulette

The Multi-Roulette Version 2 of the Impera Line™ HD Edition 9 includes Lotus Roulette™ and River Queen™ Roulette, where the majestic Mississippi sets the stage for this captivating Roulette experience.

River Queen™ Roulette offers a fresh and thrilling twist on the classic Roulette game, with the enchanting River Queen™ bringing an extra dash of charm to every spin. 1-4 additional randomly selected River Queen™ bonus numbers pay out with increased odds of up to 210 x the bet for straight numbers only.

## LOTUS ROULETTE™ Jackpot

In addition to betting with the regular chips, players can also bet on any number with a special JACKPOT chip to play for the MINOR BONUS, the MAJOR JACKPOT and the GRAND JACKPOT. The side bet is won if the chip has been placed on the traditional winning number and matches with the lucky numbers of the respective wheel sections for the jackpots. The higher the jackpot level, the more matches are required, while the wheel sections of lucky numbers get consistently narrower.

The MINOR BONUS is a fixed amount awarded to every winner, whereas the MAJOR and GRAND JACKPOT are progressive and can be won by more than one player. They consist of a fixed amount and a progressive amount which is split equally among all the winners. Only the highest Jackpot per elected number is awarded.

## NOVOVISION™ Casino Management Solution

Built on the latest cutting-edge technologies, NOVOVISION™ is a revolutionary casino management system with extensive features that cover all areas of a modern casino operation. Its system architecture is designed to handle high-volume transactions while ensuring maximum security, data integrity and regulatory compliance.

The modular design of the system allows for absolute flexibility and easy customization based on the operators' needs and legal obligations: Operators can opt for individual modules and gradually expand their system according to operational or legal requirements across the various fields of gaming: slots, live tables, online gaming and sports betting.

The high system scalability qualifies NOVOVISION™ to perfectly suit any size of operation – from small single-site venues to large casino operations – and any cash system requirement (TITO, Cashless or biometrically supported). The many extended functionalities for sophisticated player tracking, loyalty and promotions also have a significant impact on revenue growth. The NOVOVISION™ Casino Management System provides a powerful tool set that allows operators to streamline their processes, increase operational security and maximize the gaming experience for their guests. In 2023, NOVOVISION™ was awarded the "Best CMS" at the European Casino Awards. Worldwide, some 30,000 gaming machines, 3,000 betting terminals and 1,300 cash machines are operated via NOVOVISION™, and more and more operators are opting for this comprehensive software solution.

# NOVOVISION™ core

## Your secure high-efficiency casino management

The key benefit of proficient casino management is improved operational efficiency and security. The automation of time consuming casino management tasks through the basic NOVOVISION™ system functionalities enables the operator to focus on providing the best possible and welcoming customer journey with smooth entry procedures, premium customer service and a personalized gaming experience. NOVOVISION™ monitors gaming activity and transactions in real-time, granting the operator not only full administrative and operational control of his business but also enabling them to immediately identify and respond to any potential security threat.

The NOVOVISION™ system architecture is designed to ensure full compliance with all regulatory requirements, including GDPR, AML, and KYC, through features such as data protection, consent management, transaction monitoring, customer identification, due diligence, and record keeping.

## Slots management

NOVOVISION™ provides powerful capabilities for the user-friendly real-time management of multiple electronic gaming machines (EGMs). The system allows operators to configure and manage EGMs according to the capacities of the SAS protocol. It enables the seamless integration of machines into the gaming floor, real-time monitoring and alerts through SAS RTE polls and allows operators to make data-driven decisions and slot floor adjustments to maximize revenue.

## Reporting

NOVOVISION™ offers customizable reporting that generates various reports on gaming, player activity, marketing, and financial performance. These reports provide valuable insights into casino operations and can help casinos make informed decisions to improve their offerings and increase revenue.

## Player management

NOVOVISION™ provides robust player tracking and customer activity reporting capabilities based on in-depth player profiles detailing individual preferences, bonus status and promotions. This feature can help operators analyse player activity and make data-based decisions to optimize their slot floor as well as create personalized complementary offerings and promotional activities to increase player loyalty and retention.

## Accounting

NOVOVISION™ handles multiple payment methods and currencies, automates accounting, auditing and reporting, and provides detailed financial analytics. This allows the operator to optimize revenue and expenses, increase profitability, reducing the risk of financial loss and ensuring compliance with financial regulations.

## NOVOVISION™ access

### Your biometrically supported customer access & registration management

Regulatory and operator requirements demand that every gaming venue has an access control system in place to fulfil the requirements for responsible gaming, the protection of minors and relevant security aspects as well as the operator's wishes with regard to CRM, player tracking and loyalty. NOVOVISION™ access provides a highly customizable and sophisticated access solution that caters to the most discerning demands of a modern gaming operation with the effect of granting fast and easy access for the guest.

The NOVOVISION™ access set-up can be customized with an NFC card reader, fingerprint scanner and face recognition. In particular, the option of using biometrics for customer identification and/or verification ensures a smooth entry process for the guest and maximum operational security for the operator.

### Customer enrolment & registration

The basic NOVOVISION™ registration desk consists of a work station, an NFC card reader and an OCR document scanner (e.g., Desko, ScanID, Fujitsu). The initial enrolment process includes the creation of a new data record, the verification and check of the customer ID against a series of lists and registers (AML, PEP list, government and casino blacklists, etc), customer submission to the terms and conditions and the issuing of a non-transferable NFC player loyalty card.

Subsequent to the initial registration, the customer can enter the venue by scanning their player card or token at a NOVOVISION™ Interactive Reader Module plus having their ID checked for verification.

### Adding biometrics to the game

For the biometrically supported registration via face recognition, the customer's facial picture is linked to an NFC-card or token. The card or token is subsequently used for identification and facial recognition for verification. At each return visit, the register queries are automatically executed at a NOVOVISION™ Face Recognition Terminal before access is granted.

For customers who have agreed to biometrically supported initial registration including a fingerprint template, a simple scan of the fingerprint (without an ID) will be sufficient for fully automated access queries on subsequent visits.

# access

*All NOVOVISION™ access terminals use an open interface for smooth communication with other units and devices of the access system, e.g. CRM modules, sliding doors, turnstiles etc.*

# NOVOVISION™ *pay*

## Your state-of-the-art and secure cash management & payment solution

NOVOVISION™ *pay* is a portfolio of cash management and payment solutions that cater to all modern POS requirements, from small venues to all types of environments with high customer traffic. The cash terminals and cash machines are based on state-of-the-art technologies, incorporating reliable and secure software, patented security mechanisms and solid high-quality hardware with premium OEM components. A wide range of options, including biometrics, guarantee maximum usability and customer convenience as well as a high degree of customization to meet regulatory compliance or individual operator requirements.

## NOVOVISION™ *wallet*

### Your 360° solution

The NOVOVISION™ *wallet* substitutes costly TITO tickets and printers by enabling the virtual transfer of credits among gaming machines and betting terminals, payouts at cash desks and cash machines, payments at vending machines, catering, casino hotels and even online.

The NOVOVISION™ *wallet* is able to interconnect land-based operations with online platforms, hence representing a true 360-degree solution. Multi-site operations linked via a central server allow the transfer of credits among all locations connected. The medium for identification can be a smart card, a biometric feature like fingerprint, a mobile phone with the use of dynamic QR code technology, or a password for online activities.

*The NOVOVISION™ wallet grants players real-time mobile access to their cash and promotional credits in a single, fully virtual wallet: maximum convenience for the guest and real-time cash control for the operator.*

# NOVOVISION™ smart

## Your all-in-one digital wallet & player engagement platform

NOVOVISION™ smart is a multi-platform app that allows casino guests to connect with the casino like never before. The main goal of the application is to engage players through unique promotions and other app-exclusive functionalities. Through its semi-modular architecture, NOVOVISION™ smart provides a uniquely tailor-made approach to casino app development. Smoothly integrated in the NOVOVISION™ suite, it provides a seamless casino experience – on-site and abroad.

## Stay in contact with your players

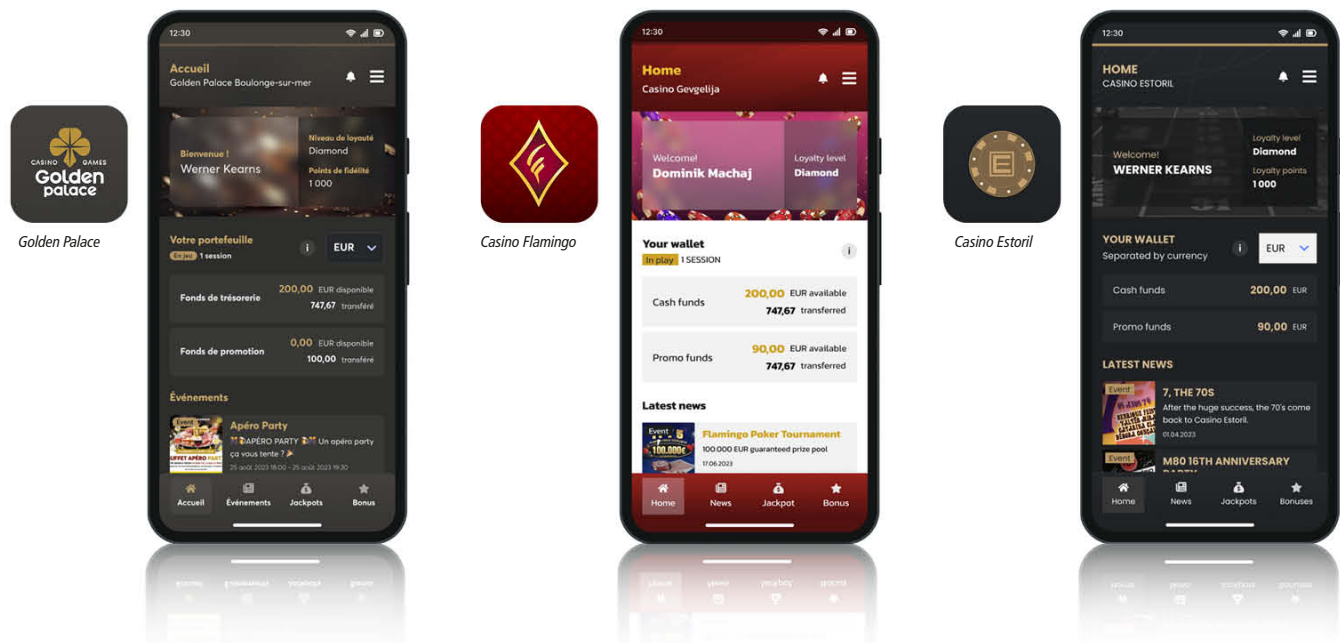

Once guests leave the casino, they used to be out of reach, and messaging them via email or SMS oftentimes was not very effective. NOVOVISION™ smart provides the solution in the form of a native mobile app that enables guests to receive push-communication and to consume content, for example news stories or info about jackpot hits, at their own pace. NOVOVISION™ smart aggregates data from the casino management system, and presents your guests the information they look for – fast and easy. For example: the player's recent wallet transactions, current jackpot levels, casino news, events, promotions, ...

## Your customized player engagement platform

Every casino has its app design built from scratch to make players feel right at home. The system offers out-of-the-box support for multiple languages, multiple time zones, and even multiple casino sites: all in one convenient app, available for almost every device — mobile and desktop — via Apple App Store, Google Play Store, and a responsive web-app.

Special features are added or modified according to customer request, to provide the best tools to keep your players happy and safe. These could include: Responsible Gaming measures, marketing consents, loyalty points and much more.

## NOVOVISION™ *promo*

### Your customer retention & promotion system

NOVOVISION™ *promo* is a unique customer retention & promotion solution that comprises a wide-ranging set of features and settings for sophisticated loyalty strategies. At the centre of it is a complimentary game embedded in a user-friendly stand-alone terminal directly at the POS, that acts as a returning point for the customer and helps increase the number of return visits of registered players within specified time periods.

The type of promotion will be individually customized according to the specific operator strategies; they might be cashable prizes, promo-tional credits or loyalty points which can be exchanged in the casino's Loyalty Store for a variety of amenities specified by the operator.

Players can earn loyalty rewards for their initial registration, return visits, play on video slots or at the live tables, and at the same time leave a track of valuable information in the system. Additional bonuses such as the Birthday Bonus, Collector Bonus, Match Bonus and many more create extra highlights and surprises for the returning player.

### Build an appreciative customer journey

Every relationship is based on the harmony of give and take. With a unique customer journey in your venue, you can add extra benefits to the gaming entertainment experience and build a lasting relationship with your players, giving them more for their loyalty:

*promo*

- **Create** your own loyalty strategies and promotions.
- **Build** up a dynamic loyalty tiers structure based on your player demographics & preferences.
- **Set up** a sophisticated currency table for loyalty achievements.
- **Design** desirable cashable and promotional rewards.
- **Surprise** your loyal customers on a regular basis.
- **Treat** your VIPs like they have never been treated before.

# NOVOVISION™ *tables*

## Your live table games support

The casino industry is constantly looking for modern improvements to the complex field of Live Gaming. NOVOVISION™ offers a variety of tools that assist in performing all the tasks necessary for operating live table games.

### Live Table Accounting

It is quite a challenge for casino operators to keep a clear picture of things going on in the pits concerning turnover of live tables. NOVOVISION™ helps keeping track, gives an overview of turn-overs, and is highly supportive in tasks such as daily settlement. The accounting system is extensively adaptable to individual and legal circumstances. Customized reports can be generated.

### The NOVODROP

As a sophisticated extension of Live Table Accounting, the NOVODROP acceptor is available for integration into the live table. Cash payments fed into the device as single banknotes or in bundles are automatically counted, registered in real-time and securely stored.

### Live Table Loyalty

Player loyalty at the live tables is usually the responsibility of the pit boss: Overseeing a number of tables, he awards bonuses to qualified customers, typically high-rollers.

NOVOVISION™ *tables* facilitates this process through an automated electronic system on a tablet PC that helps to calculate bets and individual player turnover, thus enabling appropriate bonuses to be awarded to qualified players. The system is highly customisable according to a variety of parameters.

### Live Player Tracking

#### Face recognition for live tables

As an innovative extension for the Live Table Loyalty functionality, NOVOVISION™ *tables* also offers a face recognition system for live tables. Usually, the system works with two cameras hidden in unobtrusive poles, that are strategically positioned at an ideal angle to capture all players' faces in front of/around the table in real-time. The system checks their facial images against the database of registered customers, automatically identifies a match and displays the player profile in the Live Table Loyalty App for the pit boss.

## NOVOVISION™ tournament

### Tournament management has never been so easy

The NOVOVISION™ tournament module enables you to plan, organize and manage your own live table tournaments and even leagues, with full administrative control of the events at the tables.

The functionalities include detailed settings for the game types, chips, rounds, buy-ins and prizes as well as table and player management, thus significantly reducing the administrative effort and making the organisation of Poker tournaments basically a breeze. The application also enables you to manage the tournament display content as well as messaging and sound notifications for an unlimited number of screens.

NOVOVISION™ tournament supports a variety of card games, e.g., Poker variants, Black Jack, Baccarat/ Punto Banco.

The application is fully integrated with the NOVOVISION™ cashdesk for the tournament registration as well as the players' buy-ins & prize wins directly via their NOVOVISION™ wallet.

#### MAIN MENU:

- **Template management:** Define, duplicate & configure templates for future tournaments.
- **Maintenance mode:** Active management of ongoing tournaments in real time.
- **Archive:** Full history of all events performed during the tournaments.

# NOVOVISION™ *av* (AbsoluteVision)

# NOVO Cash XCHANGE

As a brand of the German technology supplier LÖWEN ENTERTAINMENT, NOVO Cash combines the cash management know-how of the entire NOVOMATIC Group and provides proven cash handling kiosks for the gaming industry, including casinos, arcades, motorway services, FECs, pubs and betting shops.

End-to-end payment solutions including the state-of-the-art XCHANGE kiosks featuring cashless, TITO and biometric technology, as well as barcode and QR code tickets. Players have multiple options with bank cards, notes, coins, tickets, cards, vouchers and fingerprint.

The NOVO Cash XCHANGE series stands for more than just a money changer or redemption kiosk – it combines all functionality available for casinos, gaming facilities and sport betting stores in one, multi-functional device. You could call it a crossover model, like in the automotive industry.

The NOVO Cash X-Software is available on all machines, provides detailed statistics and reports both at the machine and remotely, as well as a raft of configurable options to operate the kiosk in a customised way. In addition, the NOVO Cash devices can be integrated into all casino management systems; many interfaces have already been implemented.

Although we are talking about a cross-system solution and the customisation of the XCHANGER, various products have proven particularly successful and established themselves in specific areas. We would therefore like to divide the products into three categories below to help you choose the perfect product for your application.

We distinguish between the product areas CASINO, ARCADE and NOVO Cash Recycler, which support a new product approach due to the high recycling volume of banknotes.

# Modern Cash Kiosks

## Innovative Money Changers and Redemption Kiosks

### NOVO Cash X8\*

#### ***Innovative money changer and redemption machine***

The NOVO Cash X8 is the right choice for all applications where high capacity is required. Up to two banknote validators are possible at the same time. Up to 3 cassettes offer a capacity of as many as 6,600 banknotes. Of course, the X8 also offers 6 hoppers for cent accurate payouts. A large 24 inch touch screen with video advertising area guarantees a simple and convenient operation.

### NOVO Cash X8 MRX\*

#### ***More Functions. More Capacity. More Performance.***

At the heart of the new NOVO Cash X8 MRX is the powerful banknote recycler JCM MRX. This high-tech component enables extremely fast banknote verification and processing, as well as the deposit and withdrawal of up to 30 banknotes at a time. Up to 480 banknotes of all denominations can be integrated into the banknote recycling system. Its striking features include a wide housing, an ergonomic 24-inch monitor, and a colorful front design with a blue LED light running around the edge.

### NOVO Cash X10\*

#### ***Bank-Level Cash Processing***

A certified safe in the X10's security housing provides double security. Up to 3,600 banknotes and four denominations for recycling are reliably protected. A special banknote compartment allows up to 200 banknotes to be accepted and dispensed at the same time. Up to 7,000 2-euro coins are paid out at a speed of approx. 20 coins per second. When security, capacity, and efficiency are crucial, the X10 is the right choice!

# The NOVOMATIC AG Group

The NOVOMATIC AG Group is, as a producer and operator, one of the largest gaming technology groups in the world and employs more than 20,000 people. The Group was founded by the industrialist Professor Johann F. Graf in 1980 and has locations in about 45 countries, and exports innovative gaming equipment, system solutions, lottery system solutions, and services to more than 130 countries. The Group operates gaming terminals and video lottery terminals (VLTs) in its more than 1,600 own electronic and regular casinos, as well as via rental models.

The NOVOMATIC AG Group is active as a full-service provider in all segments of the gaming industry through its numerous international subsidiaries, offering a comprehensive omni-channel product portfolio for partners and customers worldwide. This ranges from terrestrial gaming products and services, through management systems, cash management solutions, and online, mobile, and social gaming solutions, to lottery and sports betting solutions, as well as a whole host of other first-rate products and services.

## State-of-the-art production facilities

NOVOMATIC has an excellent reputation for innovative high-tech gaming equipment and content that is characterized by premium quality and reliability. Operators value the fast ROI, low maintenance costs and first-class after-sales service and support. The Group comprises modern production facilities at the Austrian headquarters, the Netherlands, Germany, Italy, Poland, Spain and Hungary, as well as in the USA, Australia, amongst others. Top quality management and ISO certification policy are mandatory.

As a manufacturer with a global footprint, NOVOMATIC attaches great importance on its corporate sustainability policy. Through an optimized production ecology and resource efficiency, as well as sophisticated environmental management policy, the Group aims to keep the ecological footprint to a minimum. NOVOMATIC is therefore successively implementing photovoltaic systems at the headquarters and in central core markets.

Research and development are important cornerstones of the NOVOMATIC business model. 31 technology centers in 18 countries represent world leadership in the development of innovative technologies, system solutions, and promising products for the land-based, online, mobile, and social gaming segments.
